

- **Compliant with IEEE 802.3af/at**
- **2.5kV Isolation**
- **Power Input: 48VDC via PoE**
- **Power Output: +12VDC**
- **2.0A Output Current Rating**
- **2.1mm/ 5.5mm Female DC Jack Power Output Connector**
- **10/100Mbps Transmission Speeds**

Overview:

The PDT-SPL-1202-100-J is a Power over Ethernet (PoE) Splitter designed to meet the needs of many portable or small form factor devices. It extracts the Power from the PoE Cat5/6/7 cable and provides it to an end-device as a discrete +12VDC output, via a standard 2.1mm/ 5.5mm Female DC Jack Socket. The remaining data portion of the signal is made available via an RJ 45 output connector. The device supports the use of PSE equipment which meet the IEEE802.3af standard, such as PoE Switches or certified PoE Injectors. This device is perfect for small form factor computers, tablets, IoT gateways and many more applications.
